

Welcome to
Thai Cluster

“Because its target is to think ‘further ahead’, setting out from the assumption that innovation and creativity are the only engine driving the future for all the links in the fashion industry, from fibre to textile, from textile to garment.”

Mr. Marcello Massarente
for Thai Cluster Project

STYLED IN ITALY

Thai Cluster is a group of Thailand's forefront creative minds who come together to develop the Thai textile and garment industry, ushering it into the world market. Thai Cluster is truly a full-circle operation, overseeing the entire process from the preparation of raw materials, straight to the design table, all the way to the end products, including marketing planning and customer service.

The dynamic group is divided into two sections: Thai Tex Trend (T³)-a Thai textile development project and Fashion Network (FN)-a Thai garment development project. Annually, both projects offer spring/summer and autumn/winter collections-each serving three different themes.

Thai Cluster project is organized by the Department of Export Promotion, Ministry of Commerce, Royal Thai Government.

THAI TEX TREND
STYLED IN ITALY

TEXTILE

Thai Tex Trend (T³), a Thai textile development project, is a group of manufacturers who share the same goal of enhancing their capacity in designing, producing and marketing on a global scale. Under directions of Mr. Marcello Massarente from Mitor Textile Consultancy Services, Milan-Italy, each year T³ offers its interpretation of up-to-date textile trends for Spring/Summer and Autumn/Winter.

FN FASHIONNETWORK

GARMENT

Fashion Network (FN) project brings together manufacturers who are dedicated to the development of clothing. Receiving creative guidance as T³ but with a different focus, FN with Mitor Textile Consultancy Services— as its consultant, work together to create quality fashionable products. These works are then exhibited worldwide through a group of marketing specialists.
