

HOST & HOME

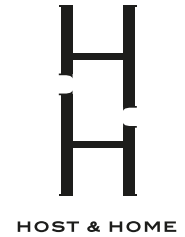

H O S T & H O M E

As international tourism continues its remarkable growth, service sectors supporting it, such as hotels, travel agents, transport, restaurants, spas etc, are enjoying the benefits of increased business. Most importantly, tourism growth is opening opportunities for niche local brands to find international success.

To tap into these opportunities, the Department of International Trade Promotion (DITP), Ministry of Commerce, Royal Thai Government is developing markets for hospitality products in Europe, particularly in Italy, through its Host & Home Project (H&H). Its aim is to assist high quality Thai lifestyle products to penetrate the European service sector, particularly in Italy. In order to help premium Thai brands gain international recognition and success, the DITP has commissioned Mitor Consultancy Services to mentor selected Thai products. Mitor is a hospitality design expert with more than three decades of experience in European markets.

DITP shortlisted 24 design and manufacturing companies to receive exclusive consultations about their hospitality products, from July 2015 to February 2016. As a result, the chosen companies have created a range of outstanding design products to show to international buyers during special H&H Showcases at high profile domestic and international home & décor trade shows. This has helped underline the design strengths, quality and production standards of Thai lifestyle products among customers and buyers from around the world.
